WORLDWIDE INDEPENDENT

Dun & Bradstreet is the world's leading source of business information and insight, enabling companies to Decide with Confidence since 1841. D&B's global commercial database contains more than 330 million business records from over 200 countries and 95 language territories. The database is enhanced by D&B's DUNSRight® Quality Process, which transforms the enormous amount of data collected daily into decision-ready insight. Through the D&B Worldwide Network – an unrivaled alliance of D&B and leading business information providers around the world – customers gain access to the world's largest and highest quality global commercial business information database.

The **D&B Risk Indicator** turns information into a brief guide of how a business is currently performing. Derived from the D&B Failure Score, this Indicator reflects a company's financial strength and the likelihood of it failing. Such valuation is based on data from the past. Based on the valuation, no statements can be made regarding future developments of the company. The grading is valid at the date of issue of this document.
